PETITION FOR CORRECTION OF INVENTORSHIP
UNDER 37 C.F.R. §1.48(c)

Applicants submit this Amendment to correct the inventorship of the claims in the subject application under 37 C.F.R. §1.48(c) in view of the claims now pending.

The correct inventors were properly named in the subject application for claims 1-37 as originally filed. However, on May 19, 1995, applicants canceled claims 1-37 and added new claims 38-69. On July 17, 1995, the Examiner issued a restriction requirement. In response, applicants elected with traverse claims 38-54 for prosecution at this time. In view of applicants' election, claims 55-69 are canceled herein.

Presently, only claims 38-54 are being examined.

Philip Wallace and Nitin Damle are not inventors of claims 38-54. Therefore, applicants respectfully petition that Philip Wallace and Nitin Damle be removed as inventors of the claims in the subject application.

Further, applicants respectfully add Drs. Robert Peach and Jurgen Bajorath, together with Drs. Linsley, Ledbetter, and Brady, as inventors of claims 38-54 by contributing to the construction of

the specific fusion proteins of claims 39-54.

Claims 38-54 are supported by the specification as originally filed. The application as originally filed discloses unclaimed subject matter by inventors not named in the application. Applicants request correction. As originally filed, there was no error in excluding Drs. Peach and Bajorath from the inventorship of the subject application. The correct inventorship of claims 1-37 were provided by applicants at the filing date.

In accordance with 37 C.F.R. §1.48(c), applicants provide a check in the amount of \$130.00 under 37 C.F.R. '1.17(h). No fee, other than the fee under 37 C.F.R. '1.17(h), is deemed necessary in connection with the filing of this Petition. If any fee is necessary, the Patent Office is authorized to charge any additional fee to Deposit Account No. 13-2724.
